NGO Coordination meeting conducted by Transparency International on 2 May 2018

Local NGOs who were not involved in reconstruction activities were invited at the meeting so that they can contribute in the processes of reconstruction. These actors are actively working in other sectors but are not directly involved in current reconstruction. HRRP focused on the need of close coordination among all stakeholders of the district.

The main outcome of the meeting are as follows:

- As TI has been advocating on transparency in works of all stakeholders of the district, many new government buildings are being built through government budget but the assurance of quality materials being used at proper ratio must be checked/monitored.

Thus, all members of the meeting will coordinate with relevant government bodies for inspection of these newly built government offices.
